"A statement to the lovers of freedom every where".

To the freedom lovers, humanity sons all over the world, and to the Arab and Palestinian masses every where too.

"As this time in which the Palestinian issue takes a new outlook on the international ground, as a legal question and a starting point in any step to have a real peace in the Middle East, and accordingly in other parts of the world. In this time especially the American Imperialism has taken a serious attitude that reveals again its support to Zionism as well as to Discrimination, that has been grown up and is being supported directly by the same agency which devided at last the extradition of the Palestinian youth "Abu-Ein" to the Zionism State.

Dear brothers in humanity, people of the world:

This oppressive decision concerns the problem of "Abu-Ein" it shows the extent of hatred within the nature of imperialism towards a whole people whose purpose is only to live but not under torture and slow death. This youth "Abu-Ein" did not commit a murder against humanity of which he is a part. He did not kill, or stood as a barrier in front of the man civilization (progress) and constancy. But he is a person who has the right to live peacefully between his relatives and his own people. Does'nt he won this right to enjoy smelling the air of this world?!!

The American Administration, by taking such a decision, deepens the sufferings of the people who don not demand anything but to live in this world. We feel that we do have the right to reveal that this attitude did not come nazadlay, but it is considered as a clear policy which has been taken intertionally to take off the roots of this people from history of the whole of humanity. Thus, Palestinians especially and Arabs generally have been traced and even by the American secret agencies even in America itself, the place of real democracy, as they claim. Let us ask frankly and doubtly .. Where was the American's democracy when Mr. Rashid Hussien (a Palestinian Poet) was assassinated by the Zionist "Masad" the year 1978 in America? And where was the American democracy when the military air crafts "F 15" killed thousands of babies and old people in Lebanon on July of this present year? Where was this democracy... Where?... Where?

Sons of Light and lovers of freedom in this world, which closes the gates of life before us.

We are the Palestinian Student Movement in the Occupied territories... asking your help and demanding you must stop this unhuman decision which devies the simplest right of human being in living with dignity on his own land and in his homeland that consist of his human history.

We want life ... we want life ... Why do not you give us the opportunity to live freely ... as you have given it to your selves?!! Give us the chance to raise our own children to live in peace and justice.

Let us struggle together in order to stop the decision of exbition. against "Abu-Ein" to the Israeli authorities.

Let us struggle and fight together in order to keep human rights in every part of the world.

Let us struggle to acheive one united society contralled by peace.  
Long live to the international Student's Movement.  
Long live the Palestinian Student Movement.  
Revolution till victory.

The Student Palestinian  
Movement.
