Subject: Holiday International Art Exhibition

Dear Sir,

I am a graduate from the High Institute of Fine Arts in Cairo. Art runs in our family who loved painting, Literature, and music as human aspects of life.

In 1953 I was awarded in an International Art Competition held in London for sculpture for the subject "The Unknown Political Prisoner" out of 3500 entries from all the world 80 winners were awarded where I was one of them and my work was exhibited in the Tate Gallery in London.

Last year I went to the United States on scholarship from the F.O.A., to study tourist advertising with Young and Rubicam Co., and Kelly Nason and others. I visited your Magazine Holiday with Mr. Sabi' and Mr. S. Waters in Philadelphia where I was very pleased from your advertising section, and your printing office. Really I returned back with a bigger understanding about my job and about the States and your people which I believe is wonderful. On my return the American Export line gave an exhibition of my work last year on the ship Excaliber.

Herewith I enclose:

- 1) Some of my photographs for you to choose
- 2) Some of the articles published about me in the States.
- 3) Explanation of the three paintings that I sent.

Yours Sincerely

Miss Fatima Muhib
